LOHITH PEDIREDLA

AI & Data Science Student | AI/ML • Software Engineering • Agentic AI

+91 6304769124 | veeralohith46@gmail.com | Andhra Pradesh, India

CAREER OBJECTIVE

Motivated second-year B.Tech student specializing in Artificial Intelligence & Data Science, with hands-on experience building AI applications, full-stack systems, data analytics projects, and agentic AI workflows. Interested in AI/ML engineering and software development, with a focus on solving real-world problems and learning through practical projects.

EDUCATION

• **B.Tech – Artificial Intelligence & Data Science**, Vignan's Institute of Information Technology | 2025–2029 (Expected)

• **Intermediate (MPC)**, Sri Chaitanya Junior College | Completed 2025

• **ICSE**, De Paul School | Completed 2023

TECHNICAL SKILLS

Languages: Python, C, SQL, JavaScript, HTML, CSS
AI / Data: Machine Learning Fundamentals, LLMs, Agentic AI, Data Analysis, Jupyter, NumPy, Pandas
Backend / Web: FastAPI, Node.js, REST APIs, React, PostgreSQL, Redis, SSE
Tools: Git, GitHub, VS Code, Docker, NVIDIA NIM

PROJECTS

API Doctor — Autonomous API Failure Diagnosis & Repair

• Built an AI-driven debugging workflow that detects API failures, collects logs and code context, performs root-cause analysis, generates repairs, validates fixes in a sandbox, and supports GitHub-based repair workflows. Worked with LLM agents, FastAPI, React, SSE, Docker, and NVIDIA NIM. Hackathon project — 2nd place among 105 teams.

CommunityLink / Cooperative Gig Services Platform

• Currently working on a production-oriented cooperative services platform connecting users with local service providers. Designed authentication, service requests, provider matching, bookings, chat, notifications, real-time events, and an immutable community-credit ledger using PostgreSQL, Redis Pub/Sub, REST APIs, and SSE.

TalentMatch AI — Resume & Job Matching Assistant | GitHub

• Built an AI-focused project for matching resumes with job descriptions, extracting skills, identifying gaps, and generating job-oriented insights.

Smart Plant Monitoring | GitHub

• Developed a web-based plant monitoring dashboard with data visualization and a user-focused interface for tracking plant/environment conditions.

Healthcare Appointment Analytics | GitHub

• Worked on healthcare appointment data analysis to explore appointment patterns and derive data-driven insights using Python and analytics tools.

STRENGTHS

Problem Solving, Quick Learning, Adaptability, Teamwork, Self-Motivation, Communication

LANGUAGES

English, Telugu, Hindi
